

OBJECT DEVELOPMENT & OBJECT HOSTING

CONSULTANT

myBIM Library is Malaysia's first online digital object catalogue, introduced by CIDB Malaysia to help facilitate and accelerate BIM adoption in Malaysia. myBIM Library saves time and effort of designers and architects to design a comprehensive BIM model without the need to develop individual construction components. With thousands of objects already available and counting, designers and architects can download and integrate 3D BIM objects directly into their design quickly, complete with specifications and information.

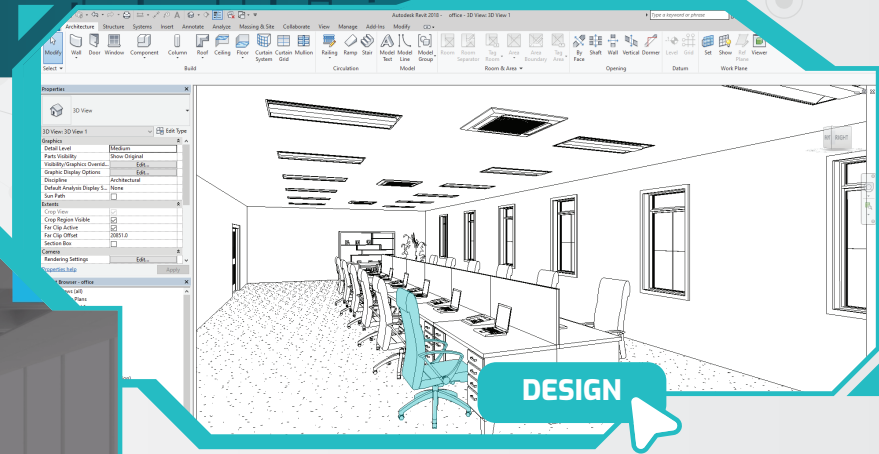

MANUFACTURER

myBIM Library also provides an innovative way for manufacturers to market products by targeting critical and important audience directly. Manufacturers' objects are represented accurately and systematically providing mobility and freedom for sales representatives to promote products to potential clients. The smart platform provides automatic sales leads and reports for manufacturers for easy performance tracking and management.

Why choose myBIM Library?

BIM DESIGN MADE SIMPLE

For Consultant/ Designer

- ▶ Free registration.
- ▶ Free unlimited download.
- ▶ Various format available to choose from.
