▲ PRODUCT INTRODUCTION

产品简介

CP is an advance steel panel-prop formwork system which allow early stripping process. It provides a suitable formwork solution and component to meets the general requirements of different construction methods and conditions.

The system adopts the structural mechanism of a 4-leg table using puzzle-style and systematic installation approach. Both panels & props are made from Grade Q345 steel components in CKD forms & assembled with bolts & nuts.

▲ CHARACTERISTICS

产品特征

SIMPLE & INNOVATIVE

- Only few components: Panel, Prop & Aux Beam / Panel
- Do not require cross / lateral braces & tripods
- Easy to transfer both horizontally and vertically

FAST & EFFICIENT

- 4-worker team for erection, stripping & removal
- Can achieve 60m² work done per man-day

SAFE & RELIABLE

- Stable system with 6-direction locking restriction
- No human lifting above shoulder required
